The annual targets of the objectives are as follows:

Required Interventions

If the LEA has failed to meet one or more of the targets for two consecutive years, the agency is required by statute to provide technical assistance in the development of an improvement plan that will enable the LEA to meet these objectives and that specifically addresses the issues that prevented the LEA from meeting the objectives. TEA will identify those LEAs not making progress toward the 100% highly qualified teacher targets based on the data reported through the campus highly qualified teacher compliance reports. LEAs will be contacted when an improvement plan is required to be submitted to TEA.

If not 100%, the subject areas the LEA/campus will address in the compliance intervention report submitted by December 15, 2011.
